

Monirul Islam

MERN Stack Developer

Dhaka, Bangladesh | (+880) 1870-567842 | info@lb.net@gmail.com

<https://github.com/minhaj-net> | <https://www.linkedin.com/in/minhaj-net/> | <https://minhaj-dev-xi.vercel.app/>

CAREER OBJECTIVE

Full-Stack Developer with 1+ year of practical experience and 15+ completed full-stack projects. Skilled in building dynamic and responsive front-end interfaces and developing secure, efficient, and scalable back-end systems. Proficient in React.js, Node.js, Express.js, and MongoDB with strong knowledge of REST APIs, authentication, and performance optimization. Passionate about clean code, problem-solving, and contributing to high-growth teams within Agile development environments.

PROJECTS

1. Online Learning Platform : [Live site](#) | [Github \(Client Site\)](#) | [Github \(Server Site\)](#)

Built a full-stack learning platform managing courses, user enrollment, and real-time progress tracking with 500+ simulated users.

- Optimized backend APIs reducing data retrieval time by 40% for smooth UX
- Designed a responsive, user-friendly UI and optimized API performance for a smooth learning experience.
- Implemented a secure authentication system with role-based access for students

Tech Stack: **TailwindCSS** , **ReactJS** , **Firebase** , **ExpressJS** , **NodeJS** and **MongoDB**

2. Event- Management Website : [Live Site](#) | [Github \(Client Site\)](#) | [Github \(Server Site\)](#)

Developed an Event Management Website that allows users to add, update, and delete events efficiently while managing registrations and user interactions.

- Built an interactive event listing and detail page with dynamic filtering and search functionality.
- Built CRUD functionality to add, update, and delete events seamlessly
- Created a responsive, mobile-friendly UI for seamless user experience across devices.

Tech Stack: **TailwindCSS** , **NextJS** , **ReactJS** , **Firebase** , **ExpressJS** , **NodeJS** and **MongoDB**

3. APK Manager Website : [Live site](#) | [Github \(Client Site\)](#)

A modern APK management platform that allows users to upload, organize, and monitor app files efficiently, ensuring smooth distribution and real-time update tracking.

- Added an intelligent APK size analyzer that auto-calculates storage requirements based on file size
- Integrated a secure download management system supporting multiple access types, including public,
- Implemented an interactive device compatibility map that displays supported Android versions

Tech Stack: **TailwindCSS** , **ReactJS** , **Swiper JS**

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), HTML5, CSS3

Frontend Development: React.js, Next.js, Tailwind CSS, Responsive Web Design, UI/UX Implementation

Backend Development: Node.js, Express.js, RESTful API Development, API Integration

Database & Cloud: MongoDB, Firebase (Authentication, Firestore, Hosting)

Version Control & Collaboration: Git, GitHub

Deployment & Hosting: Vercel, Netlify, Cloudflare

Development Tools: VS Code, Postman, npm/yarn, Chrome DevTools

Soft Skills: Team Collaboration, Technical Communication, Time Management

EDUCATION

HSC (Higher Secondary Certificate) – 2025 - 2027 Sherpur Government College, Bogura, Bangladesh |

Relevant Skills: Self-taught Full Stack Development through online platforms and hands-on project work

LANGUAGE

Bengali: Native **English:** Fluent (Speaking, Reading, Writing)
